

My College Services

Transition from full time education into adult services can be a challenging and vulnerable time for young adults and their families. Without the right support, a young person may end up becoming isolated and not making the most of their adult life.

We are here to support you, to listen to you and to help you with anything you may need. You can decide what you want to do on the day and plan your day activities with your key worker. All of our activities are community based, that means you will be doing things what interests you, like swimming, visiting places of interest and much more.

We will support you with your needs, abilities and aspirations.

We recognise and respond to your needs with sensitivity and flexibility.

All our workers have been selected through a detailed and comprehensive recruitment procedure and hold an enhanced disclosure carried out through the Disclosure and Barring Service. The service we offer is provided by trained Workers who have the skills to meet the needs of the service users.
